

***Web-based Hydrologic Information Portal for the Upper San Pedro Basin (WHIP) - Focus Group 1
November 18, 2020
1:30 p.m. – 3:30 p.m.
Zoom***

The WHIP Focus Group 1 is being held on by invitation to gather specific input that will help inform the **WHIP**. The focus group is designed to gather input on data needs from scientists, researchers, land and water managers and leaders of local governments, agencies and businesses working in the Upper San Pedro Basin.

Many invitees are also members of the Upper San Pedro Partnership (USPP). Per open meeting laws, the public will be able to attend as “attendees” (Zoom terminology) in a listening-only mode and will be assigned to the Agency/Government/Business Leader break out room.

No action items will be generated nor will any decisions be made by the USPP at the focus group. They are designed to gather information only that will be used to build the WHIP framework this winter. Focus Group 2 will be held in early 2021, at which time a focus group will also be held specifically for the public. Members of the public will be provided an opportunity to submit input after the focus group via email to bbushman@tnc.org.
